

At **Building Evolution**, we're innovators shaping the future of high-performance building. We deliver market-leading technical expertise, analysis, and services that help our clients achieve smarter, more efficient buildings.

We're a team of passionate problem-solvers from diverse backgrounds, united by a shared commitment to client service and continuous learning. At **Building Evolution**, we foster deep collaboration. We teach, we explore, and we grow together, proactively generating **solutions** that make a real impact for building owners and operators, for building users, and for the broader community of stakeholders.

Building Evolution is looking for a team member with:

- Bachelor of Science degree in engineering, architecture, construction technology, or similar.
- **3+ years** of experience as a **Certified Passive House Verifier** (Phius), including HERS ratings on multifamily buildings.
- Ability to lead the verification process and projects.

Candidates must also demonstrate professional competence at

- Certifying projects under ENERGY STAR Homes / Multifamily New Construction, Indoor AirPLUS, and Zero Energy Ready Home.
- Performing take-offs on enclosure, MEP, and lighting systems.
- Performing on-site inspections and testing, including blower door, duct leakage, and ventilation testing using diagnostic testing equipment.
- Energy analysis/benchmarking and energy modeling software. Experience with **eQuest**, **EnergyPlus**, **OpenStudio**, **WUFI**, and **THERM** a plus.

We offer a competitive and comprehensive benefits package:

- Salary Range: \$85,000 - \$120,000, commensurate with experience.
- Profit-sharing bonus plan (eligible after 3rd quarter of employment)
- 75% employer-paid medical insurance
- 100% employer-paid vision and dental insurance
- 100% employer-paid short- and long-term disability insurance
- Retirement savings plan with employer match
- Generous paid time off: 15 days PTO + 11 company holidays
- Employee referral program
